

FSYFL Field Location Matrix

(Updated 12/5/2011)

The following matrix is a field guideline for the 2012 season based on the current # of teams.

While this list is accurate as far as where fields will be placed based on the current list of registered teams, the final amount of fields and locations is still being negotiated and as teams are still registering, there may require adding of additional fields.

All Final Field Addresses will be posted on the www.FSYFL.com web site well before start of season.

FIELD TYPES

Main Fields (operate most every week) Regional Fields (operate 3-4 weeks) Pilot Fields (operate 1-2 weeks)
